Professional Profile

Results-driven Full Stack Developer and WordPress Specialist with a proven track record of building scalable web applications and custom WordPress solutions. Combines expertise in the MERN stack (MongoDB, Express, React, Node.js) with advanced WordPress development, including theme customization, plugin optimization (Elementor, ACF Pro), and e-commerce integration (WooCommerce). Adept at translating client requirements into high-performance digital solutions while adhering to secure coding practices and Agile methodologies. Passionate about leveraging technology to empower education and refugee support initiatives.

Core Competencies:

✔ Full Stack Development: React, Node.js, Express, MongoDB

✔ WordPress Customization: Theme/Plugin Development, Elementor, WooCommerce

✔ RESTful API Development & System Architecture

✔ Secure Coding & Agile Project Management

✔ Cross-functional Collaboration & Problem Solving

Technical Skills

Frontend: React, JavaScript, HTML5/CSS3, Bootstrap

Backend: Node.js, Express, RESTful APIs

Databases: MongoDB

WordPress: Custom Themes, Plugin Development, Elementor, ACF Pro, WooCommerce

Tools & Practices: Git, Agile, Secure Coding, System Design

Interests: AI/ML, Cybersecurity, Tech Education, Scalable Architecture

---

Education & Certifications

PLP Academy | Software Development Program

Feb 2025 – Present | Remote

- Building real-world applications with modern full-stack technologies.
- Focus: Scalable architecture, clean code, and collaborative development.

AReL (Action for Refugee Life) | Certificate in Full Stack Development

Feb – Aug 2025 | Intensive Training

- Mastered MERN stack (MongoDB, Express, React, Node.js).
- Developed secure, responsive web applications with RESTful APIs.

Malek Secondary School, South Sudan | SSCSE (2019)

Key Projects

1. Universal Write Publications (UWP)

WordPress Developer

- Developed a custom WordPress platform for digital publishing, including theme design and plugin optimization.
- Tech: WordPress, Elementor, ACF Pro, WooCommerce.
- Features: Content migration, e-commerce integration, and performance optimization.

2. LMS Africa – Learning Management System

Full Stack Developer

- Built an LMS for African schools with course tracking, assignments, and student management.
- Tech: React, Bootstrap, Node.js, Express, MongoDB.
- Features: User authentication, real-time updates, mobile-responsive UI.

3. SSN Backend – Sustainable Schools Network

Backend Developer and frontend

- Designed a secure RESTful API for donations, communications, and school data management.
- Tech: Node.js, Express, MongoDB.
- Focus: Scalability, data security, and seamless frontend integration.
